

REMARKS

Applicants thank the Examiner for the thorough consideration given the present application. Claims 1-14 are currently being prosecuted. The Examiner is respectfully requested to reconsider his rejections in view of the amendments and remarks as set forth below.

OBJECTION TO THE DRAWING

The Examiner objected to the drawings as including a misspelling in Figure 6 and as needing the legend "Prior Art" in Figure 1. By way of the present amendment, Applicants are submitting replacement sheets which add the legend "Prior Art" to Figure 1 and correct the misspelling to "Fig. 6" as required. Accordingly, this objection is believed to be overcome.

OBJECTION TO THE SPECIFICATION

The Examiner objected to the specification as having misspellings on pages 6 and 7 and an incorrect patent number on page 1. By way of the present amendment, these have now been corrected. Accordingly, this objection is believed to be overcome.

CLAIM OBJECTIONS

The Examiner objected to claim 10 and required that the last instance of "aperture" should be changed to "vent". This has also been accomplished by way of the present amendment.

Applicants have also corrected a grammatical error in claim 1.

CONCLUSION

Since the Examiner has indicated that all of the claims are allowable except for the various objections indicated, and since these objections have now been overcome, Applicants submit that the application is now in condition for allowance. Accordingly, an early and favorable action is respectfully requested.
